SOFTWARE DEVELOPER | HRITIK.DEV.04@GMAIL.COM | +91 8873306171 | LINKEDIN | GITHUB | PORTFOLIO

EDUCATION

CCS UNIVERSITY, MEERUT

BACHELOR OF COMPUTER APPLICATIONS
2023 - 2026

DEO CHAND COLLEGE

Intermediate

2020 - 2022 XII
HAJIPUR, BIHAR

M.D.V INTER COLLEGE

Matriculation

2019 - 2020 X
GOVINDPURAM, GHAZIABAD

SKILLS

TECHNICAL SKILLS

Languages : C, C++ Programming,
Java, JavaScript, HTML5, CSS3

Frontend : React.js, Vite.js,
TailwindCSS

Backend & DB: Node.js, Express.js,
MongoDB, RESTful APIs

Tools & Auth: Git, GitHub, JWT,
Bcrypt.js, Axios, Cloudinary

SOFT SKILLS

Problem Solving, Adaptability,
Leadership, Teamwork, Initiative

INTERESTS

Web Development | UI/UX Design |
Programming | Problem Solving | Open
Source

CERTIFICATIONS

- CSS, Bootstrap, JavaScript, Web Development Course - Udemy
- Git and GitHub - Udemy
- React: All You Need to Know with Practical Project - Udemy
- Responsive Web Design - freeCodeCamp

LANGUAGES

- ENGLISH
- HINDI

SUMMARY

BCA Graduate from CCS University, with hands-on experience building full-stack web applications. Proficient in React.js, Node.js, Express.js, and MongoDB, with a strong foundation in C++ and Object-Oriented Programming (OOP). Gained professional experience through a web development internship, with a strong focus on clean architecture, secure API design, and user-centered solutions.

EXPERIENCE

WEB DEVELOPMENT INTERN

GUPTA AROMATICS PVT. LTD.

JUL 2025 – SEP 2025

- Contributed to web-based projects in a professional environment, applying real-world development practices.
- Designed and developed user-focused interfaces, improving UI/UX based on practical requirements and team feedback.
- Collaborated with the development team to build responsive, functional web components using HTML, CSS & JavaScript.

TECHNICAL PROJECTS

DOCTOR-PATIENT MANAGEMENT SYSTEM | Git | Demo

React | Node.js | Express.js | MongoDB | Cloudinary | Socket.io

- Developed with MVC architecture - 7 RESTful route modules with 4 middleware layers for a scalable codebase.
- Secured with JWT authentication and bcrypt, implementing role-based access and rate limiting for production-level security.
- Built 3 core features - appointment scheduling, medical record & profile management and used Cloudinary for image storage.

INVENTORY MANAGEMENT SYSTEM | Git

C++ | OOP

- Built a console-based Inventory Management System in C++ using OOP managing 4 product attributes across 2 classes
- Implemented 5 CRUD operations via a menu-driven interface supporting up to 100 product records simultaneously
- Applied linear search for real-time product lookup and left-shift logic for efficient record deletion

ONE-TO-ONE CHAT APPLICATION | Git | Demo

Express.js | Node.js | React | MongoDB | Socket.io

- Developed with MVC architecture - 10+ RESTful APIs with middleware layers for a scalable codebase.
- Secured with JWT authentication and bcrypt, implementing security layers — protected routes, CORS and OTP verification.
- Built real-time messaging via Socket.IO, used Axios for frontend-backend communication and Cloudinary for image storage.
