SOFTWARE DEVELOPER | HRITIK.DEV.04@GMAIL.COM | +91 8873306171 | LINKEDIN | GITHUB

EDUCATION

CCS UNIVERSITY, MEERUT

BACHELOR OF COMPUTER APPLICATIONS

2023 - 2026 | Expected

Current 7.4 CGPA | **VIth Semester**

DEO CHAND COLLEGE

Intermediate

2020 - 2022 XII

HAJIPUR, BIHAR

M.D.V INTER COLLEGE

Matriculation

2019 - 2020 X

GOVINDPURAM, GHAZIABAD

SKILLS

TECHNICAL SKILLS

Proficient with :

React.js Node.js Next.js Vite.js
Javascript Express.js MongoDB
Git GitHub HTML5 CSS3
TailwindCSS Bootstrap

Familiar with :

C C++ Programming JSON Web
Tokens (JWT) Bcrypt.js CORS
Axios Socket.io RESTful APIs

Strongest Areas :

Problem Solving | Full Stack
Development | MERN Stack

SOFT SKILLS

Leadership | Initiative | Team Player
Resourcefulness | Resiliency

INTERESTS

Full Stack Web Development -
MERN Stack | UI/UX Design |
Programming | Learning new
things | Problem Solving | Linux

LANGUAGES

ENGLISH

HINDI

SUMMARY

Software Developer with strong problem-solving skills and hands-on experience in building scalable, real-time web applications using the MERN stack. Proficient in REST API development, secure authentication, and open-source collaboration. Continuously learning about system design, algorithms, and best engineering practices. Driven to contribute to impactful tech solutions and collaborate within dynamic engineering teams.

TECHNICAL PROJECTS

MEDICARE | DOCTOR-PATIENT MANAGEMENT SYSTEM

React | Node.js | MongoDB | Cloudinary | Socket.io | JS

- Developed a full-stack healthcare platform enabling secure doctor-patient interaction.
- Implemented role-based authentication and RESTful APIs for appointment and record management.
- Integrated real-time notifications for appointment status updates using Socket.IO.

SECURE ONE-TO-ONE CHAT APPLICATION

Express.js | Node.js | React | MongoDB | Socket.io

- Developed a 1-on-1 real-time messaging platform using Socket.IO for instant message delivery.
- Implemented secure authentication and authorization with JWT and Bcrypt.
- Used Axios for smooth frontend-backend communication and added timestamps for chat tracking.

COMMUNITY NETWORKING PLATFORM | VIBEMEET

Express.js | Node.js | React | MongoDB | Socket.io

- Developed a social media platform with real-time notifications and live updates using Socket.IO.
- Implemented secure authentication, protected routes, and RESTful APIs for data operations.
- Designed scalable MongoDB schemas and optimized queries using Mongoose population.

CERTIFICATIONS

- Rest API - HackerRank
- Python (Basics) - HackerRank
- Responsive Web Design - FreeCodeCamp
- CSS, Bootstrap, JavaScript, Web Development Course - Udemy
