SUMMARY

MERN Stack Developer pursuing BCA at CCS University (2023–2026), with hands-on experience building full-stack web applications — including real-time systems and healthcare platforms. Proficient in React, Node.js, Express.js, MongoDB, and Socket.IO. Gained professional experience through a web development internship, with a strong focus on clean architecture, secure API design, and user-centered solutions.

EXPERIENCE

WEB DEVELOPMENT INTERN

GUPTA AROMATICS PVT. LTD.

JUL 2025 – SEP 2025

- Worked as a Web Development Intern in a professional environment.
- Contributing to web-based projects and learning real-world development practices.
- Gained experience in designing user-focused interfaces.

TECHNICAL PROJECTS

DOCTOR–PATIENT MANAGEMENT SYSTEM | MEDICARE

React | Node.js | MongoDB | Cloudinary | Socket.io | JS

- Developed a full-stack healthcare platform enabling secure doctor–patient interaction.
- Implemented role-based authentication and RESTful APIs for appointment and record management.
- Integrated real-time notifications for appointment status updates using Socket.IO.

INVENTORY MANAGEMENT SYSTEM

C++ | OOP | File Handling

- Built a C++ OOP based Inventory Management System to manage products and records (console-based).
- Implemented CRUD operations (Add, View, Update, Delete, Search) using classes and objects
- Used classes, objects, and encapsulation for structured design and organize code efficiently.

ONE-TO-ONE CHAT APPLICATION

Express.js | Node.js | React | MongoDB | Socket.io

- Developed a 1-on-1 real-time messaging platform using Socket.IO for instant message delivery.
- Implemented secure authentication and authorization with JWT and Bcrypt.
- Used Axios for smooth frontend-backend communication and added timestamps for chat tracking.
